

FLUIX DASHBOARDS

Bring your field data to life — consolidating real-time activity, reports, and visual insights into a single, interactive view

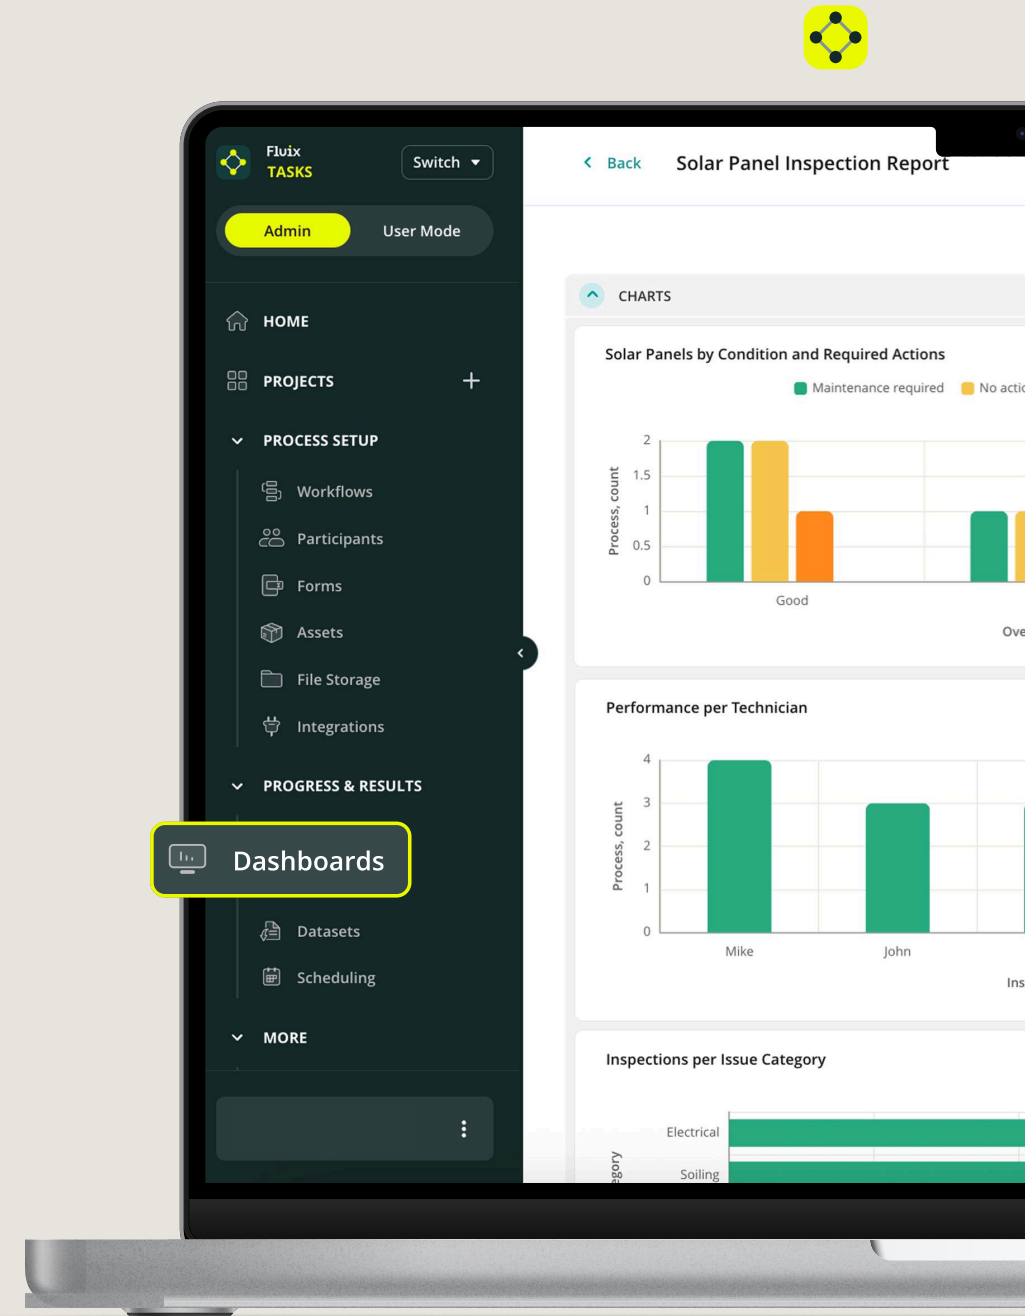

● DASHBOARD

EVERYTHING YOU NEED TO GET STARTED

- Company-Wide And Project-Specific Dashboards
- Real-time Data Sources per Dashboard
- Add Data or a Chart In 1 Click
- Easy Export & Share to

THE PROBLEM YOU ARE SOLVING WITH DASHBOARDS

Your field data lives in forms, tasks, and reports – but getting a complete picture of operations means jumping between multiple views, manually compiling the data, and losing time before decisions can be made. With Flux Dashboards, you can eliminate this.

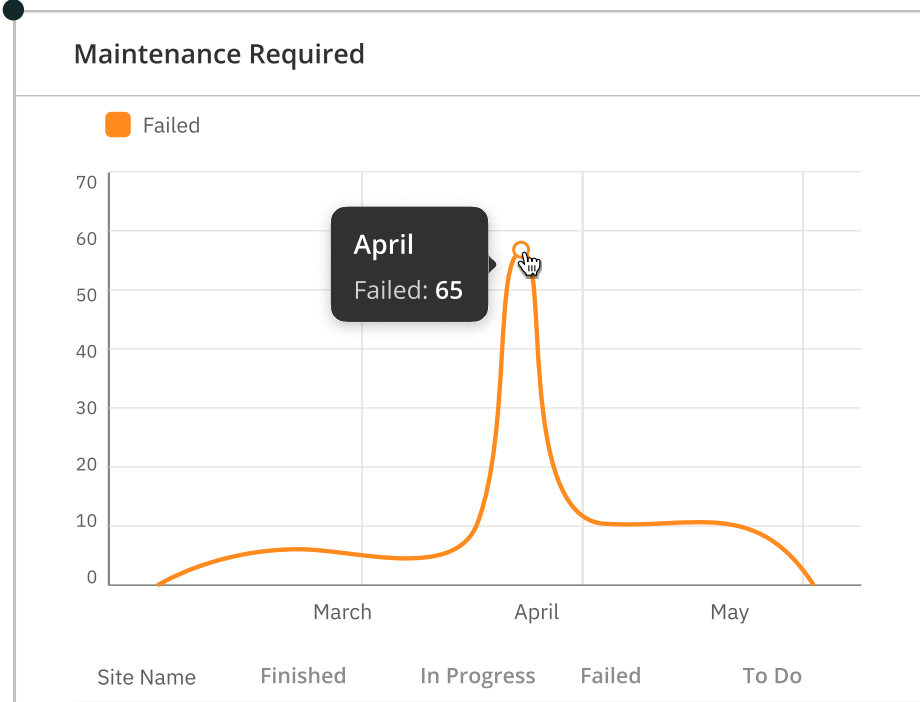

KEY BENEFITS

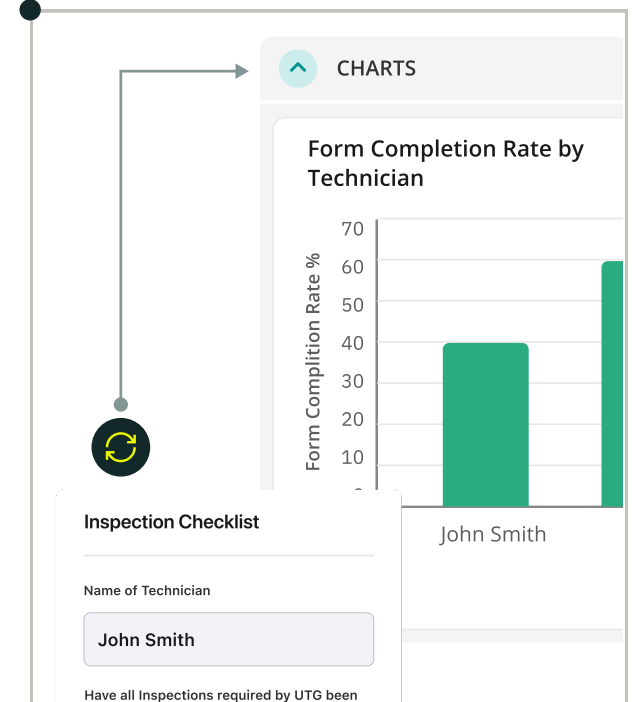

Identify Patterns & Analyze Incidents. Spot recurring issues, seasonal peaks, or inefficiencies hidden in raw field data. Visualize issue types, frequency, and severity to prioritize corrective actions before they escalate.

One Source of Truth for Field Data. Consolidate field activity data into a centralized reporting hub - ensuring data consistency, maintaining integrity, and keeping every team aligned on the same data.

Real-Time Data. Every time a field team submits a form, your dashboard updates automatically. You'll see a live view of operations as they happen.

FORMS (7)	PROCESS	TASK STATUS
<input type="radio"/> Inspection Checklist - 01/0...	IM-4 Inspection Machine	FINISHED
<input type="radio"/> Inspection Checklist - 02/0...	IM-4 Inspection Machine	FINISHED
<input type="radio"/> Inspection Checklist - 03/0...	IM-4 Inspection Machine	FINISHED
<input type="radio"/> Inspection Checklist - 04/0...	IM-4 Inspection Machine	FAILED
<input type="radio"/> Blade Inspection Checklis...	IM-5 Inspection Machine	TO DO
<input type="radio"/> Blade Inspection Checklis...	IM-5 Inspection Machine	TO DO
<input type="radio"/> Blade Inspection Checklis...	IM-5 Inspection Machine	TO DO

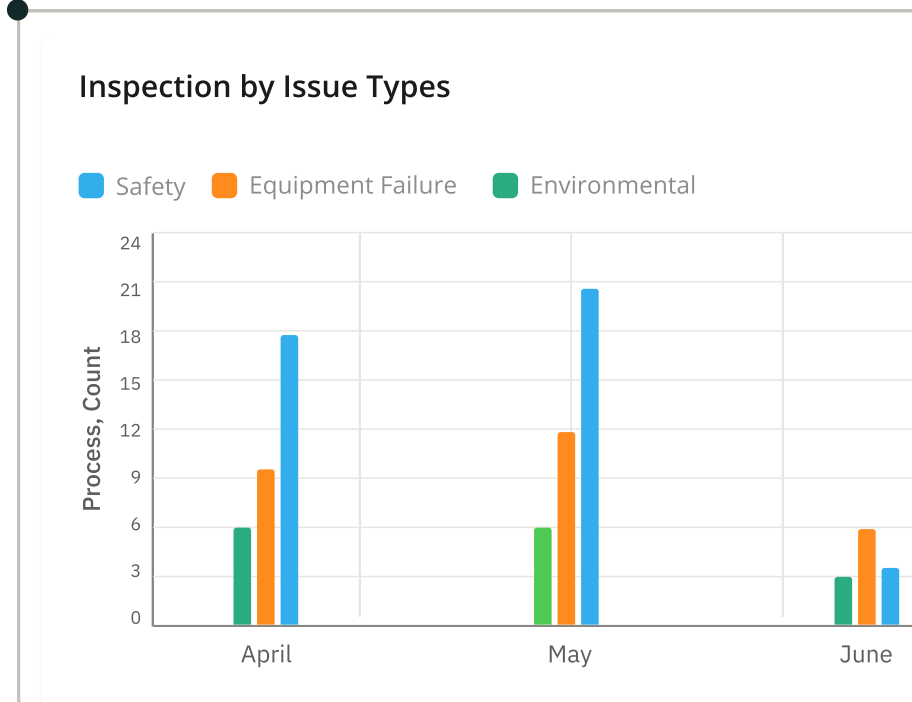

KEY BENEFITS

Dedicated Views for Every Team and Project. Save separate dashboards tailored to specific projects, processes, or audiences, so project managers, safety leads, and executives each see exactly what they need, without the noise.

+ Create a Dashboard

- Default Dashboard
- Wind Power Insights
27 Feb 2026, 01:05 pm • Project: Solar Horizon Initiative
- Wind Energy Performance Tracker
27 Feb 2026, 01:05 pm • Project: Global
- EcoWind Output Monitor
27 Feb 2026, 01:05 pm • Project: EcoWave Energy Solutions
- Green Energy Wind Dashboard
27 Feb 2026, 01:05 pm • Project: Green Future Innovations

Visualize Data Captured In The Field. Build dashboards with filtered data from the forms and tasks your field team fills out on site, and instantly visualize it in the Charts.

Sharing Capabilities. Improve communication with stakeholders, team, & management by sharing separate charts for reviews, POCs, and reporting cycles.

- Share to Users
- Download CSV
- Download XLS
- Export via API

HOW IT WORKS

- 1. Navigate to the Dashboards.** Go to the Dashboard section at the Account or Project level.
- 2. Create a New Dashboard.** Configure the data added to the Dashboard that fits your needs by applying the filters and adding necessary data.
- 3. Visualize Your Data.** Add charts to bring your filtered data to life - choose the chart type, data categories, formulas, and more to surface the insights that matter.
- 4. Share & Act.** Share your dashboard internally with teammates and management, or externally with shareholders or customers.

What's Included:

- Account & Project-level Dashboards
- One-click Report & Chart import
- Custom layout of Dashboards
- Easy team sharing

AVAILABILITY

Dashboards are included starting from the **Fluix Crews Plan**. Compare plans on our [Pricing](#) page.

FIELD WORK DONE RIGHT.

Instant Visibility. Effortless Reporting.
Right Decisions.
