

LINK FIELD MANUALS WITHIN DYNAMIC FORMS

One less app to manage for your IT

● INTRODUCTION

Learn how your field teams can access reference materials directly within their Fluix forms.

Connect equipment manuals, work instructions, operating procedures, and the latest approved corporate policies. Select the exact page where field workers can access the guidance they need.

STEP 1

Upload reference manuals or standard operating procedures to [Fluix Cloud Storage](#).

STEP 2

Open Field Team Form.

STEP 3

Embed direct hyperlinks into your dynamic target forms.

BUSINESS OUTCOME

Field team accesses critical reference documentation directly within their active Fluix form, eliminating manual directory searches and application context-switching during inspections.

● KEY VALUE PROPOSITION

Enhance operational accuracy and execution speed.

Equipping field personnel with real-time access to accurate documentation minimizes compliance errors, reduces repeat visits, and drives consistent field performance.

OPTIMIZE YOUR WORKFLOW TODAY

Link a reference PDF to a dynamic form in under 3 minutes.
